button technology

**Compact**  
and portable -  
can be stored  
in a car

**Can be used**  
with larger vehicles

**Can be recharged**  
from the 12v cigarette  
lighter socket or via AC

I can. “ Restart our ribs out on the pontoon without needing to move the boat or replace the battery. ”

**Mark Pullinger, Yamaha Motor (UK) Ltd**

# WORLD'S SMALLEST USB CAR CHARGER MOTORMONKEY

# WEATHERPROOF LIGHTWEIGHT RUGGED LIGHT LIGHTMONKEY

## YOU CAN: CHARGE IPADS IPHONES & SMARTPHONES MOBILE PHONES GPS SAT-NAVS E-READERS IPODS MP3 PLAYERS & MORE

iPad, iPhone and iPod are trademarks of Apple Inc., registered in the U.S. and other countries.

### ADDITIONAL FEATURES

- Can charge iPads as well as much smaller 5v devices
- Incredibly small and compact
- Supplied with a USB charging retractable cable and monkeynuts which means you can have one single charger which works with numerous devices
- Auto-off technology prevents overcharging and draining your car battery
- Self-sensing technology to regulate required charging voltage

**USB socket** enabling universal charging

**Finished in tooling aluminium,** motormonkey is built to last

### ADDITIONAL FEATURES

- Supplied with headstrap and magnet
- Fully compatible with Powertraveller's range of 5v chargers
- Compatible with any 5v USB output

**Extremely versatile** with magnetic holder, rubber bracket and strap

**7 to 8 hours of continuous light** when powered by the powermonkey explorer

**Weatherproof** and shockproof

The lightmonkey requires external power source (not included)

**TOUGH  
POCKET SIZED  
UV INDEX  
TESTER  
UV MONKEY**

**TOUGH FLEXIBLE  
TANGLE FREE  
TRAVEL CABLES  
MONKEYTAILS**

**VERSATILE  
TOUGH  
LIGHTWEIGHT  
CONNECTOR TIPS  
MONKEYNUTS**

**YOU CAN:  
MEASURE THE SUN'S POWER**

With the UV monkey you can see exactly how strong solar charging will be. At its core is a chemical compound which changes colour to indicate the UV intensity of the sun. Small enough to slot in a pocket or attach to a backpack, the UV monkey can also help outdoor adventurers keep safe in the sun – letting them know when it is time to seek out the shade.

**YOU CAN:  
CONNECT CHARGE  
OR SYNC**

Due to popular demand, we have created three new USB-to-device travel cables and named them monkeytails. These tough little cables allow you to charge or sync a whole host of devices either via USB or by your favourite Powertraveller portable charger. Every pack contains 1 x USB to Mini USB, 1 x USB to Micro USB and 1 x USB to Apple iPad, iPhone and iPod. Cable length 150mm.

iPad, iPhone and iPod are trademarks of Apple Inc., registered in the U.S. and other countries.

**YOU CAN:  
CHARGE ALL YOUR DEVICES**

All our portable chargers are supplied with adaptors (called monkeynuts) for the most popular devices – typically our product packs include some or all of the following, though this is only a sample of the connectors available:

- Nokia & Mini Nokia
- Motorola V66
- Samsung G600
- LG Chocolate
- Sony Ericsson
- Motorola RAZR V series
- BlackBerry
- Female USB charging tip
- iPod/iPhone
- DC4.0 connector for Sony PSP and some digital cameras
- Laptop tips also available

If an adaptor is not included, the chances are we will have it. Visit [powertraveller.com](http://powertraveller.com) to find the one you need.

**Specifications:**

- Weight: 6g (average)
- Dimensions: Varies

**International Mains Charger**  
with interchangeable heads

The powermonkey, minigorilla and powergorilla products come supplied with an International Mains Charger with interchangeable heads for UK, Europe, US/China and Australia and feature over-voltage and short-circuit protection. Our International Mains Charger has all the necessary Approval certifications and complies with relevant standards.
